Mu-Mimo and 802.11g. Will I get multiple parallel streams?

2019/11/17

Hi Folks! Just joined the community! I've got a question related to Mu-Mimo Wave 2 and 802.11g. As we know "Mu" supports multiple streams in parallel. Does it mean that if I have one device which is 802.11n and another 802.11g, then they can receive and send in parallel? Or user devices must be 802.11n and higher? Thank you very much.

## **mobile phone jammer Tarzana**
